ABOUT US

Cleansimur/Jigsimur was born from one man's determination to overcome adversity. In the early 1990s, Deon Ungerer of George, Western Cape, South Africa, developed a unique natural herbal formulation using Aloe Ferox from his family farm and carefully selected ingredients while seeking to improve his own well-being.

After experiencing positive results, Deon began sharing his creation with family and friends, whose enthusiastic feedback quickly spread by word of mouth. As demand grew,

Cleansimur was introduced to retail through Golden Harvest Supermarket and soon became a trusted health drink enjoyed across South Africa.

Committed to preserving its quality and integrity, Deon established his own production facility in 1998. Today, alongside his wife, Rouxnel Liebenberg, Cleansimur continues to be proudly produced in the Western Cape, maintaining the same dedication to quality, natural ingredients, and excellence that inspired its creation.

From a humble kitchen recipe to a trusted household name, Cleansimur remains a testament to innovation, perseverance, and a passion for natural wellness.
